Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: In the

examiner's opinion, it would not have been obvious to one of ordinary skill in the art to

modify the device disclosed by Izumi (U.S. 6,417,898) so that the pixel electrodes are

formed over the color filters. Furthermore, the prior art did not teach or suggest

patterning the gate and data lines using the barrier lines as a mask, or removing the

barrier lines after forming the color filter and forming separate light shielding lines.

Any comments considered necessary by applicant must be submitted no later

than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on

Statement of Reasons for Allowance."
